RE: Connect America Fund, WC Docket No. 10-90

Dear Mr. Lanning:

On September 13, 2016 CenturyLink notified the Commission of its intent to modify its Connect America Fund (CAF) Phase I Round 2 incremental broadband deployment plans. Subsequently, on September 23, 2016, the Wireline Competition Bureau released a Public Notice announcing the deadline for existing providers to notify CenturyLink of any census blocks they currently serve which have been included in CenturyLink's modified deployment plans.

By this correspondence, Gardonville Cooperative Telephone Association (Gardonville) is providing notification to CenturyLink of the census blocks currently served by Gardonville which have been included in CenturyLink's modified plans. The attachment to this letter identifies the relevant census blocks. In each of these census blocks Gardonville provides broadband service at speeds exceeding 3Mbps downstream and 1Mbps upstream. The census blocks in the attached were identified by comparing CenturyLink's submission to Gardonville's most recent 2016 Form 477 data which was filed with the Commission. The Form 477 data reflects Gardonville's most current broadband deployment, the accuracy of which is certified to by a Gardonville official. As such, the census blocks in the attached must be considered served by Gardonville and therefore ineligible for CAF funding.

A copy of this correspondence is also being filed with the FCC via its Electronic Comment Filing System (ECFS) in WC Docket No. 10-90. Please contact me should you have any questions regarding this notification.

Sincerely,

/s/ Brad Kirckof  
Brad Kirckof  
Director of Operations
